

Consent Agreement

CANARY SPEECH, INC.

Purpose: This policy details the types of information we may collect, how we use that information, and the measures we take to safeguard the data we receive. We will not sell personal data to third parties.

Participation in this assessment will provide you with an analysis of your mental/emotional well-being and/or will be used in support of designated research initiatives. You will provide responses to a series of questions. Your responses will be both verbal and non-verbal.

By your consent, you agree with the following:

- You understand your participation is voluntary. You may end the assessment at any time by simply closing the application.
- You understand that this assessment is not designed to prevent, diagnose, or treat any specific disease or condition.
- You understand that any information collected during the assessment will be de-identified and remain anonymous.
- You understand that any anonymous data or data derived from anonymous information collected may be used for research purposes and/or commercial algorithms.

Additional detail regarding the use of data collected during the assessment can be found in the [Canary Speech Privacy Policy](#).
